

CLAIMS

1

2 The invention claimed is:

3 1. A case indicative of specific greens of a specific golf course for
4 displaying golf balls on tees, said case comprising:
5 a) a display case; and
6 b) golf course-related elements;
7 wherein said golf course-related elements are disposed in said
8 display case.

9 2. The case as defined in claim 1, wherein said display case is
10 generally rectangular-parallelepiped-shaped.

11 3. The case as defined in claim 1, wherein said display case has a
12 bottom portion;
13 wherein said display case has a top portion; and
14 wherein said top portion of said display case selectively closes
15 said bottom portion of said display case.

16 4. The case as defined in claim 3, wherein said bottom portion of said
17 display case has a bottom wall;
18 wherein said bottom portion of said display case has a pair of side
19 walls; and
20 wherein said bottom portion of said display case has a rear wall.

21 5. The case as defined in claim 4, wherein said front wall of said top
22 portion of said display case is transparent so as to allow seeing
23 said golf-course related elements in said display case from their
24 sides and also when said top portion of said display case is closed.

- 1 6. The case as defined in claim 4, wherein said top portion of said
2 display case has a top wall; and
3 wherein said top portion of said display case has a front wall.
- 4 7. The case as defined in claim 6, wherein said top wall of said top
5 portion of said display case is transparent so as to allow seeing
6 said golf-course related elements in said display case from their
7 tops when said top portion of said display case is closed.
- 8 8. The case as defined in claim 6, wherein said front wall of said top
9 portion of said display case is transparent so as to allow seeing
10 said golf-course related elements in said display case from their
11 sides when said top portion of said display case is closed.
- 12 9. The case as defined in claim 6, wherein said top wall of said top
13 portion of said display case is hingedly attached, by hinges, to
14 said rear wall of said bottom portion of said display case.
- 15 10. The case as defined in claim 6, wherein said front wall of said top
16 portion of said display case depends from said top wall of said top
17 portion of said display case; and
18 wherein said front wall of said top portion of said display case
19 overlies said front wall of said bottom portion of said display case
20 when said top portion of said display case is closed.
- 21 11. The case as defined in claim 4, wherein said golf course-related
22 elements sit on said bottom wall of said bottom portion of said
23 display case.

- 1 12. The case as defined in claim 4, wherein said golf course-relat d
2 elements comprise at least one insert; and
3 wherein each insert of said at least one insert of said golf course-
4 related elements replicates a specific green of a specific golf
5 course.
- 6 13. The case as defined in claim 12, wherein said at least one insert
7 of said golf course-related elements is eighteen to replicate the
8 eighteen holes of a standard golf course.
- 9 14. The case as defined in claim 12, wherein each insert of said at
10 least one insert of said golf course-related elements is generally
11 flat; and
12 wherein each insert of said at least one insert of said golf course-
13 related elements is generally square-shaped.
- 14 15. The case as defined in claim 12, wherein each insert of said at
15 least one insert of said golf course-related elements has a top
16 surface; and
17 wherein each insert of said at least one insert of said golf course-
18 related elements has a bottom surface.
- 19 16. The case as defined in claim 15, wherein said top surface of each
20 insert of said at least one insert of said golf course-related
21 elements has indicia thereon; and
22 wherein said indicia on said top surface of each insert of said at
23 least one insert of said golf course-related elements pictorially
24 replicates a specific green of a specific golf course.

- 1 17. The case as defined in claim 12, wherein each insert of said at
2 least one insert of said golf course-related elements has a through
3 bore;
4 wherein said through bore extends centrally through an associated
5 insert of said at least one insert of said golf course-related
6 elements; and
7 wherein said through bore through an associated insert of said at
8 least one insert of said golf course-related elements replicates the
9 hole in a specific green of a specific golf course.
- 10 18. The case as defined in claim 15, wherein said bottom surface of each
11 insert of said at least one insert of said golf course-related
12 elements has a portion of hook and loop fasteners thereon; and
13 wherein said portion of hook and loop fasteners on said bottom
14 surface of each insert of said at least one insert of said golf
15 course-related elements selectively mates with a sheet of a mating
16 portion of hook and loop fasteners that covers said bottom wall of
17 said bottom portion of said display case so as to allow each insert
18 of said at least one insert of said golf course-related elements to
19 be interchanged to replicate a specific green of a specific golf
20 course.
- 21 19. The case as defined in claim 17, wherein said through bore in each
22 insert of said at least one insert of said golf course-related
23 elements is receivable of a tee holdable of a golf ball so as to
24 replicate a tee in the hole of a green of a standard golf course
25 holding a golf ball.
- 26 20. The case as defined in claim 19, wherein said tee is split to
27 provide a snugger compressive fit in said through bore in an insert

1 of said at least one insert of said golf course-related elements
2 which it is received in.
